

Gentle Skin[®] Isopretex[®]

Latex-free surgical glove ideal for environments in which high tactile sensitivity is required.

Generally used in surgical areas with sterile requirements and anywhere the user is working in a sterile environment with an identified risk of contamination. For infectious situations in hospitals, GP surgeries, oral and maxillofacial surgery, in laboratories or in the pharmaceutical industry.

Surgical glove made of polyisoprene:

- Latex-free
- Powder-free
- Micro textured
- Beaded cuff
- Left and right handed
- Anatomical fit
- Packed in pairs
- Sterile, for single use only
