#### Sterile alkaline cleaner for use in cleanrooms

## perform<sup>®</sup> sterile mucasol

#### **Our Plus**

- ready-to-use alkaline cleaner for powerful cleaning
- fast, effective, alkaline (pH ca. 11.6)
- sterile (X-ray irradiated)
- ready to use in handy, sterile 500 ml and 1 L spray system
- colorant & perfume-free
- suitable for cleaning cytostatics and monoclonal antibodies

#### **Application areas**

For cleaning surfaces and equipment/appliances in cleanrooms as well as surfaces made of glass, porcelain, plastic, rubber, stainless steel, brass and copper. Especially for areas of cleanliness classes A and B, in accordance with: Annex 1 to the EU Guide to Good Manufacturing Practice: Manufacture of Sterile Medicinal Products, March 2009. FDA Guidance for Industry: Sterile drug products produced by aseptic processing - current Good Manufacturing practice; U.S. Department of Health and Human Services, Food and Drug Administration, September 2004.

#### Instructions for use

Apply undiluted to a cloth or objects and surfaces and wipe. After cleaning, rinse objects and surfaces thoroughly with water of at least drinking water quality to remove cleaning agent residues. Avoid contact with aluminum. After cleaning, subsequent disinfection with, for example, perform<sup>®</sup> sterile alcohol IPA\* is recommended. Special notes:

The sterile spray system offers the following advantages:

- particularly handy and space-saving
- ergonomically shaped spray pump does not slip out of the gloved hand
- sterile even after opening

The bottles are sterile (with irradiation indicator) and individually double-wrapped.

\* Use disinfectants safely. Always read the label and product information before use.

### perform<sup>®</sup> sterile mucasol

#### **Product data**

Composition:

100 g solution contains the following active ingredients: < 5% phosphates (tripotassium orthophosphate)

#### **Special advice**

Intended exclusively for use by skilled personnel. The product is unsuitable for cleaning alkali-sensitive materials (e.g. anodized aluminum and zinc). Do not mix with other products. Protect from frost, heat and sunlight. Store upright in the original container at room temperature. Dispose of completely empty packaging to the collection of recyclable materials. Keep container tightly closed.
